

YOU ARE MY FRIEND

I know my heart is thumping and bumping
Because I knew what to do
Just for me and you
I did something amazing just for you
Summer's so far away from here
I'll make myself clear
I did it just for you
Cause you are my friend until the end.

BUTTERFLIES

Butterflies flutter in the sky up high
Their wings are colourful as a rainbow
It feels like they're putting on a show
Just for me
They flutter around sucking nectar
They are so amazing
Just like you and me
