

# MG1 Measuring length

You can use popsticks to measure things. Measure the **length** of the objects below.

Object	How many popsticks?
 lunchbox	<input type="text"/> popsticks
 keyboard	<input type="text"/> popsticks
 teacher's desk	<input type="text"/> popsticks
 chart	<input type="text"/> popsticks
 newspaper	<input type="text"/> popsticks

The  is longer than the .

Which object is the longest?
